Question: Written comments.
This was my first course in the discipline of Geography and the overall experience was amazing! I would definitely take another course with this professor for the following reasons: *Concise *Informative *Enthusiasm *Knowledge *Preparedness that was demonstrated with each and every class session.
Professor went over everything necessary for exams. Made time for students after class and gave us all the tools to succeed. Highly recommended.
Excellent teacher!!!! He is a model educator and comes highly suggested.
One of my favourite class of this semester
awesome teacher and he is very understanding
Professor Ribant is amazing, I learned so much just because he puts everything straightforward and simple. This is a gen ed class for me and I was not looking forward to paying much attention to it but the way Professor Ribant taught it, it was very interesting and caught my attention. 10/10 for him! I recommend him for other courses because he knows his information accurately. Would take him again for other classes!
It's a good course, Mike is a good teacher. The only reason anyone should've had any trouble is if they didn't show up or study for the exams or quizzes. I've actually recommended the class to someone else because it was such a good class.
Very Kind teacher, always available for any questions and for some make up quizzes. I wish my teacher the best along the way.
Mr. Ribant is an excellent teacher. Only covers things that are relevant and never went of tangent. He's extremely nice and will give students a second chance if they missed something. I would definitely take another course taught by Professor Ribant.
Professor was really helpful and cooperative.I like his teaching teachnique.
This course was difficult to me because this is something I never did and I was really new to it so taking in that much information was a challenge and it showed on my exams.
Awesome teacher, covers relative current events. Going to class and studying didn't feel like it was hard work.
Great class to learn a lot of random information, I'm not saying that in a bad way at all. Highly recommend.
Professor Ribant is very passionate about his subject. Most of all he is fair and clear with his students. He made every lecture and study guide available for us online as well as his time outside of class. He was successful at teaching what was indicated in the syllabus.
Mike Ribant has distilled this course down to what it should be. Useful information about the geography of the world and topics within geography. We have touched on every region, and discipline. A worthwhile introduction course.
Professor Ribant is excellent! He actually makes me proud to attend this university. We should have more professors like him.
